I propose to answer these questions, and in doing so, I am, of course, to be understood only as expressing my opinions. I think those opinions.

His object is to become Pressident of the United States; and he inlonds to form a sectional anti-slavery party in the northern States to accomplish this great an jet of ambition. He cares nothing about the existence or non-existence of slavery in the southern States. On that question he is profoundly in different. I timb, also, that the details of the measure are indefensible; that the denial to the alleged lightive of a trial of this alleged obligation to labor, and of his escape from it, by a court, and nothing less than a Court of justice, constitutionally organised, and proceeding according to the course of the common law within the State where he is claimed, is palpably in derogation of the Constitution, that the rules of evidences, which the law prescribes, are oppressive of the weak and defenceless, and that this provisions which make escape from bondage a crime, by a law retrosctive in its effect, and without limitations of time to favor the presumption of freedom, which, in deer rigercus penalties, compet freedom, which, in deer rigercus penalties, compet freedom, which, in deer rigercus penalties, compet freedom to all out the provisions which make escape from bondage a crime of saves, and which offer unmistaken inducing the provision of the competitions that the constitutional provision out which the law purports to be founded, is merely a compact between the States; and that the constitutional provision out which the law purports to be founded, is merely a compact between the States; and that the congress of the United States have no jurisdiction of the subject.

Nor is the law, which is so obnoxious in itself, commended to my favor by its connection with what are called the other means of compromise. Compromise implies a mingting of truth and error, right and wrong. One of those affiliated measures denied the admission of New Mexico, occause she had determined to come in as a free State, and remanded her, with persussion to come back in the habitiments of slavery.
